****Not applicable until September 2008**

Mentoring Opportunities Explanation

Guest speaker: A guest speaker will have the opportunity to present various applications of science, math, engineering, and technology in our community. Presentation could be either to a classroom or auditorium.

Demonstration: A demonstration lasts one hour for small groups of sophomores and could include a mini-class, a hands-on workshop, a project, a discussion, a question and answer forum, or a presentation.

Host tour of facility: Business will host student visit to the facility to see first-hand practical applications of science, math, engineering, and technology. Tour could be for a few students only, a class, or the entire school.

Special events: Let us know about any existing outreach or educational programs that you would like our students to participate in.

Host job shadow: Junior students will have the opportunity to intern at a business of interest for a 30 hour job shadowing experience getting a closer look at the practical applications of your business.

Project advisor: A project advisor will help senior students create and complete a senior project to be presented at the end of the year. Time commitment will vary by the type of project and the amount of supervision it requires.

For questions or concerns please contact JaDean at 797-1264, at JFrehner@intechchs.org, or by mail at Center for the School of the Future
